

Hot Dog Stand Game

After watching the *JA Our Region* Lesson 3 volunteer video session, complete the following activity.

Materials

- Paper
- Small note cards
- Markers or pencils

Activity

Create a board game about a hot dog stand business or another business of your choosing.

- Create your own game board or use a template you find online.
- Be sure players experience some of the different aspects of owning a business, such as paying rent, buying supplies, keeping track of the money, and making sales. You can mark the spaces on your board with these concepts.
- Create cards to go with your board game similar to those found on other board games, such as random chance cards that change your player's turn or add or subtract to his total.
- Consider creating a score sheet to go with your game to help players keep track of the money they are earning and spending.
- When your game is ready, find people to play it with you and see what they learn about owning a business.
